

Changing Anki Interface Language

Slovenian Language Class 2020

Changing the Interface Language

If your 'Interface Language' has been changed or incorrectly set-up, your screen may look like the top screen. The English version would look like the bottom screen. The positions of the the menu items are the same regardless of language.

To change the 'Interface Language', select the 'Preferences' menu languages

Slovenian Language Class

Changing Interface Language

Click on the 'Interface Language' Selector List and select English. You will now be instructed to Exit and Re-start Anki.

That's it!
